25X1

1. It is reported that following orders received from Moscow the Rumanian Communist authorities have decided to step up the production of cellulose as part of the Five-Year Plan. New factories will be constructed according to plans made by Soviet specialists and engineers and will be equipped with Soviet machinery installed by Soviet technicians.
2. The plan calls for the construction of a cellulose combine to produce, among other things, 150 per cent more paper bags than are being produced now. The combine will be built in Bucharest in the Gheorghiu-Dej raion (zone).
3. Another cellulose factory is planned for the Oltenia region. This factory is supposed to produce five times the present total production of cellulose.
